You built a dream, we achieve it

FADHIL AJINA

Over the last fifty years we have continuously believed that Architecture is a human effort where each project is important no matter how big it is.

From the start, a respect for history stands as a constant and enduring theme throughout our work. Therefor in every project we seek to integrate history with modernity, taking into consideration climatic conditions, cultural and social life.

Our staff consist of a diverse, driven and cohesive team of talented individuals, ranging in specialty from architects, urban planners, interior designers to civil, electrical, mechanical engineers and graphic designers. Working as a team lies at the top of our business priorities.

341

projects

12

cities

276

clients

We Are Interior & Exterior Design Architects. Let's Make Your Dream Come True.

We have won numerous Government project competitions and have been awarded a wide range of projects including scientific, agriculture laboratories, housing complex, hotels complex, banks, schools, leisure facilities and rest houses, in addition to privately commissioned projects.

“Before
designing a
building, we
must listen to
the city and
meditate on it's
color”

VISION

Ensure that every client who leaves our office, does come back with a smile.

MISSION

You built a dream, we achieve it.

PHILOSOPHY

Is that Art and Architecture go hand in hand by creating designs focusing on the project identity, functionality, simplicity, beauty and budget, sourcing local materials and labour wherever possible.

Furnishing, Lighting, Plants and accessories.

Our Core Values

CLIENT RELATIONSHIP S

Our clients are our existence and so we listen, keep our promises and are responsive to our clients.

INTEGRITY & RESPECT

We keep our commitments and do what is right. Honesty and truthfulness guide our conduct. We are open minded and celebrate the unique qualities of people. We believe that trust is earned by our actions every day.

STEWARDSHIP

We are committed to the stability and growth of our business, the future of our people and the positive impact of our work on the environment.

COLLABORATE & INNOVATE

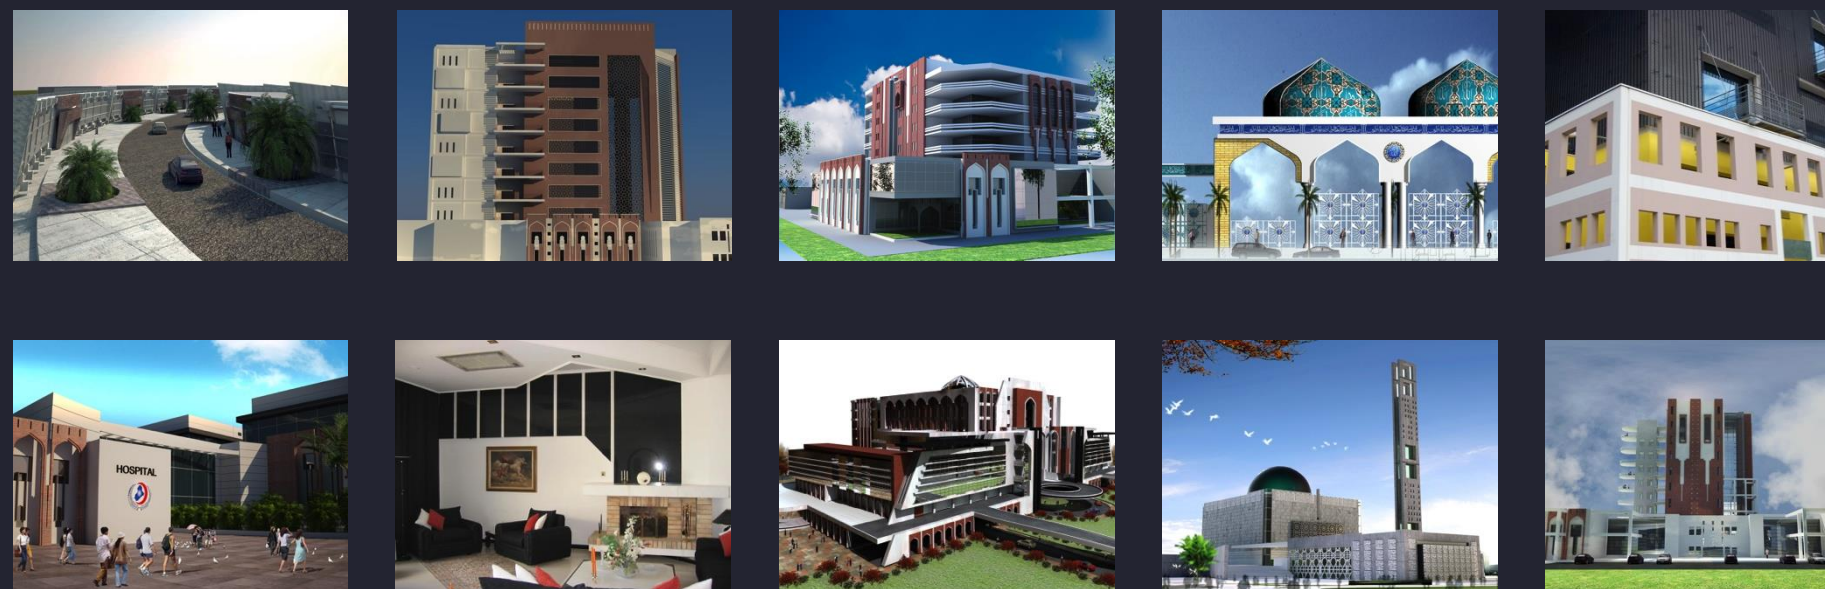

We accomplish more as a team than any one person can individually. Shared responsibility and personal accountability drives our culture.

EXCELLENCE

We strive for the highest level of quality in all things, and believe that continuous improvement should always be a goal.

Architecture is
a visual art and
the buildings
speak for
themselves.
